

Syllabus for Mathematics 1060 Fall 2010
Precalculus

Professor: Spencer Stirling

Email: [stirling AT math.utah.edu](mailto:stirling@math.utah.edu)

Office: JWB 107

Course Webpage: www.spencerstirling.com/teaching/M1060/M1060.html

Office Hours: TBA

Text: Larson and Hostetler, *Precalculus* 7th edition

Description: In this course we will study trigonometry. This subject, in addition to M1050, are meant to prepare you for calculus. The **prerequisite** material for this course is found in M1010. The material for both M1060 (this course) and M1050 can be found in the course book.

We will cover Chapters 4, 5, 6, and 10.7-10.9

Exams: There will be weekly quizzes (lasting 20 minutes each) that will account for 40 percent of your grade. There will be a final worth 30 percent. The problems will be similar to what you will encounter on the homeworks. Books/notes are NOT allowed during the exams or quizzes. Only scientific calculators (no graphing) are allowed during the quizzes (NO calculator is allowed on the final).

Homework: I will assign homework weekly via the WebWork online system. I will discuss this more in class. The link can easily be found from the math department website www.math.utah.edu. The homeworks will be worth 30 percent of your grade. LATE HOMEWORK WILL NOT BE ACCEPTED.

Help: You are encouraged to go to the Math Tutoring Center located in downstairs LCB. Googling it will produce a page that lists their hours, location, and offerings.

The University of Utah provides upon request appropriate academic accommodations for qualified students with disabilities. For more information please discuss with me at the beginning of the course.
